

Semistandard Tools

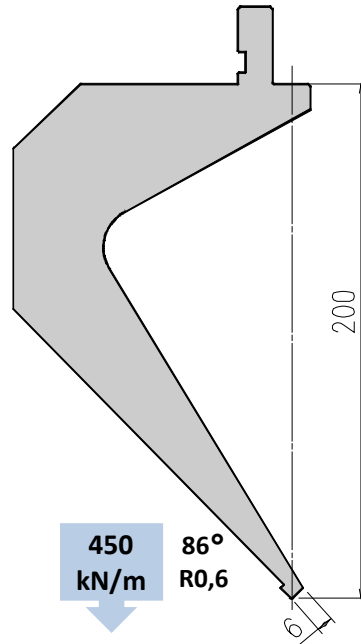

Punch Type 831 H200
30°-R0,6

Item No. SE8310012	
Tool length	415
Weight (Kg)	12,2

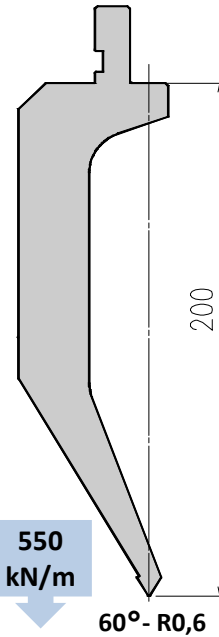

Punch Type 846
H200_W110 86°-R0,6

Item No. SE8460012	
Tool length	415
Weight (Kg)	27,2

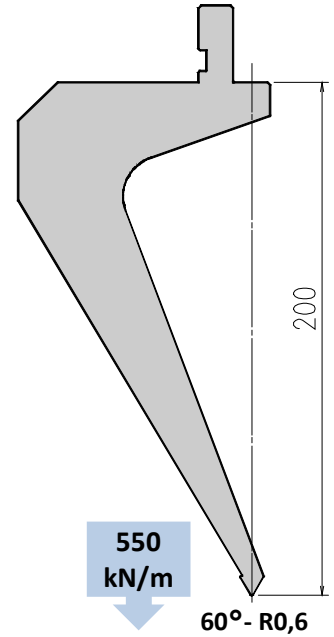

Punch Type 841
H200_W55 60°-R0,6

Item No. SE8410012	
Tool length	415
Weight (Kg)	16,8

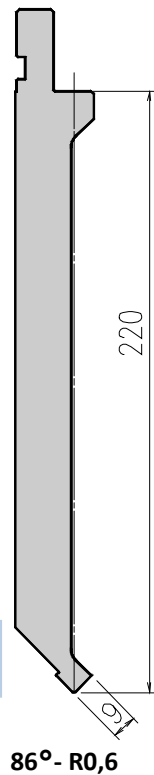

Punch Type 841
H200_W95 60°-R0,6

Item No. SE8410022	
Tool length	415
Weight (Kg)	22,4

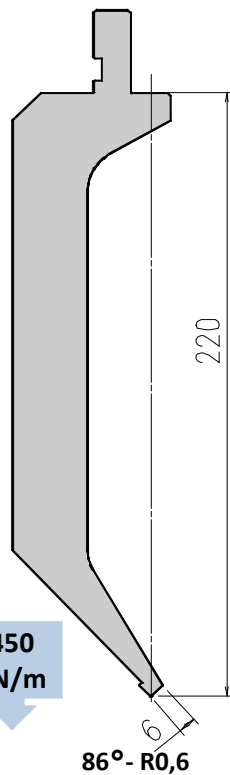

Punch Type 804 H220
86°-R0,6

Item No. SE8040012	
Tool length	415
Weight (Kg)	14,9

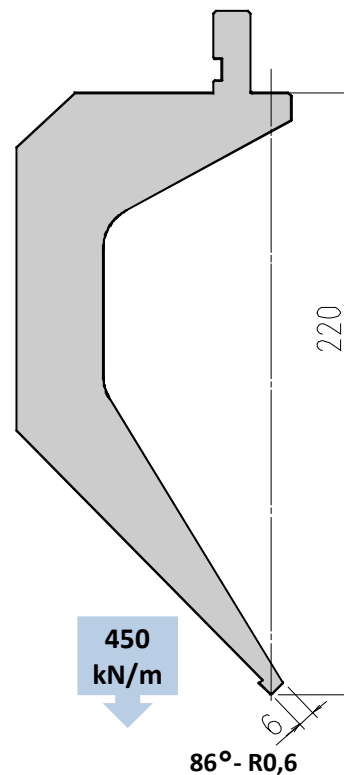

Punch Type 846
H220_W55 86°-R0,6

Item No. SE8460022	
Tool length	415
Weight (Kg)	19,4

Punch Type 846
H220_W95 86°-R0,6

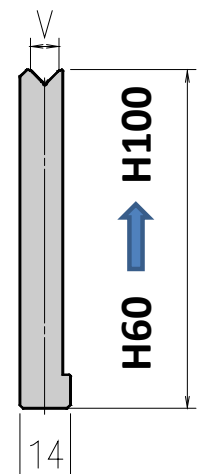

Item No. SE8460032	
Tool length	415
Weight (Kg)	25,9

Semistandard dies

Item No. ---	
Tool length	835
Weight (Kg)	---

All AFH standard dies, up to V25 opening, can be ordered in AMANIT® quality with 100mm special height.

1. All punches with 1000 N/mm² body strength and 54-58 HRC tip hardness
2. According to your requirements please ask for special tip radius, special sectionalized lengths, special ear shapes (considering the reduced tonnage capacity)
3. Without non corrosive coating on punch body
4. See chapter "Tables and Graphs" for return bend area details
